Product Intelligence

Pro Trade Construction Adhesive Fast Grip - 420g ## Product Overview **Pro Trade Construction Adhesive Fast Grip** is a high strength construction adhesive manufactured by Selleys that provides strong initial holding power with a water-based formulation. The product offers low odour characteristics and enables easy water clean-up, making it a practical choice for various construction bonding applications. ### Product Information | Specification | Details | **Product Name** | Pro Trade Construction Adhesive Fast Grip | **Packaging** | Cartridge | **Size** | 420g | **Product Code** | 102109 | **Bar Code** | 9300697129949 | **Reference Number** | SELGHSEN000859 | **Colour** | Beige | **Physical Form** | Paste | **Recommended Use** | General purpose building adhesive | ## Key Features - **Strong initial grab** - Provides rapid bonding capability - **High strength** - Delivers durable bonds for structural requirements - **Flexible** - Maintains flexibility after curing for stress relief - **No drip, sag or stringing** - Clean application without excess material - **Fast clean up with water** - Uncured product removes easily with water - **Paintable after 12 hours** - Allows quick finishing options ## Technical Specifications ### Physical and Chemical Properties | Property | Typical Result | **Technology** | Water-based | **Colour** | Beige | **Odour** | Mild | **Specific Gravity** | 1.44 | **Viscosity** | >20.5 mm²/s @ 40°C | **Solubility** | Miscible with water | **Total VOC (g/Litre)** | Not available | **Relative Vapour Density (air=1)** | >1 | ### Bond Strength Performance | Test Standard | Property | Result | **AS 2329-1999D** | Initial Bond Strength | >200 kPa | **AS 2329-1999E** | Bond Strength in Tensile Shear | >1.5 MPa | **AS 2329-1999F** | Bond Strength in Peel | ~40N/25mm | ### Curing and Service Performance | Property | Result | **Initial Cure**

| 24 hours | | **Full Cure Time** | 72 hours | | **Service Temperature** | Bonds will resist temporary exposure up to 140°C | | **Time to Join Surfaces** | Within first 5 minutes | | **Minimum Set Before Removing Fasteners** | 24 hours | **Suitable Application Materials** Pro Trade Construction Adhesive Fast Grip is suitable for use on the following substrates: - **Wood products**: Timber, MDF, particleboard - **Building materials**: Plasterboard, styrene foam, masonry, concrete - **Surfaces**: Tiles, ceramics, metals, plastics*, rubber, glass - **Architectural elements**: Skirting, cornices, architraves **Note**:* *Pre-test plastics to determine compatibility. Not suitable for polyethylene, polypropylene, Teflon, or silicone. **Application Methods** Pro Trade Construction Adhesive Fast Grip can be applied in the following ways: - **Along length of joists, studs or battens** - Apply bead along the length - **Broad flat surfaces** - Apply beads every 40 cm - **Higher initial grab technique** - Apply to one surface only, press together, pull apart, and allow to dry for up to 5 minutes before firmly joining **Surface Preparation Requirements** Surfaces must be properly prepared before application: - Clean and dry - Free from dirt, grease, oil, or water - All loose material removed **Approved Applications** - **Interior applications** - Suitable for indoor use - **Sheltered exterior applications** - Protected outdoor surfaces only **Limitations and Restrictions** - **Not suitable for structural bonding** - Should not be used as the sole bonding agent for structural bonding applications - **Not for mirrors** - Use Selleys Liquid Nails Mirror Metal & Glass instead - **Not for metals heated by direct sunlight** - Bonds weaken at higher temperatures - **Avoid tightly clamped joints** - Not recommended for cabinet making or joinery **Standards Compliance** - **Australian Standard AS 2329 (1999)** - Pro Trade Construction Adhesive Fast Grip meets this construction adhesive standard - **Green Building Council VOC Limits** - Meets VOC limits for multipurpose construction adhesives **Standards and Certifications** The product is classified as a **Class 3 Flammable Liquid** and is **not classified as Dangerous Goods** according to: - Australian Code for the Transport of Dangerous Goods by Road & Rail - New Zealand NZS5433: Transport of Dangerous Goods on Land - International Maritime Dangerous Goods Code (IMDG Code) - International Air Transport Association (IATA) Dangerous Goods Regulations **Hazard Classification** **Hazard Statement**: H317 - May cause an allergic skin reaction **Hazard Classification**: Sensitisation - Skin - Category 1 **Personal Protection Equipment** For safe handling of Pro Trade Construction Adhesive Fast Grip: - Safety shoes - Overalls - Gloves (Nitrile rubber gloves are suitable for intermittent contact) - Safety glasses **Storage Conditions** - Store in a cool, dry place - Store away from sources of heat and/or ignition - Store away from incompatible materials (oxidising agents) - Keep container standing upright - Keep containers closed when not in use **Clean Up** - **Uncured product**: Remove with water - **Cured product**: Remove by scraping or sanding **Safety Data Sheet** Access Comprehensive warnings, first aid information, and shipping details for Pro Trade Construction Adhesive Fast Grip can be found in the product Safety Data Sheet (SDS) available through www.selleys.com. --- **References** - [1] PRO_TRADE_CONSTRUCTION_ADHESIVE_FAST_GRIP-AUS_GHS.pdf - [2] pro-trade-construction-adhesive-fast-grip-tds.pdf - [10] directory/business_homepage/selleys.md
