Details:

Selleys has been Australia's most trusted brand in sealants and fillers for decades — recognised in the Reader's Digest Annual Trusted Brands Awards year after year. Whether you're sealing a bathroom, weatherproofing a roof, filling gaps around skirting boards, or tackling a professional construction job, there's a Selleys sealant engineered for the task.

The Selleys Sealants Range

Wet Area Silicone

Designed for bathrooms, kitchens, and laundries — anywhere moisture is a constant. Selleys Wet Area Silicone creates a waterproof, flexible seal that resists mould, won't shrink or crack, and holds up under repeated exposure to water and steam.

Available in a wide range of colours including Brilliant White, Clear, Black, Charcoal, Light Grey, Dark Grey, Mocha, Off White, and Ivory — in sizes from 75mL tubes through to 300g cartridges and multi-packs. There's also a dedicated ****No Mould Silicone Sealant**** formulation for areas prone to mould growth.

****Best for:**** Bath surrounds, shower recesses, splashbacks, basin edges, laundry tubs.

No More Gaps — Gap Fillers

Australia's most recognised gap filler range. No More Gaps products fill and seal cracks around skirting boards, cornices, window and door frames — leaving a smooth, paintable finish.

The range covers every situation:

- ****No More Gaps Interior**** — available in colour-matched options including Coffee, Cream, Charcoal, Light Grey, and a range of Dulux-matched tones (Hog Bristle Half, Timeless Grey, Natural White and more) - ****No More Gaps Bathroom & Kitchen**** — waterproof, flexible formulation for wet areas - ****No More Gaps Exterior**** — UV-stable flexible gap sealant for outdoor use - ****No More Gaps Interior Fast Dry**** — when you need to paint over quickly - ****No More Gaps Timber Floors**** — colour-matched to timber floor tones (Baltic, Hardwood, Jarrah, Walnut) for invisible repairs - ****No More Gaps Bricks & Mortar**** — flexible pointing and gap-sealing for masonry

****Best for:**** Interior and exterior renovation, tiling work, timber flooring repairs, weatherproofing.

Multi-Purpose Sealants

When you need a sealant that works across multiple substrates and conditions, Selseys multi-purpose options deliver:

- **Selseys 635 Multipurpose Elastic Sealant** — clear, flexible, elastomeric. Excellent for glass, metal, timber, and masonry - **Selseys 630 Low Modulus Flexible Sealant** — designed to absorb movement in joints without cracking - **Selseys All Clear** — crystal clear silicone for glass and transparent applications - **Selseys FlexiSeal** — general purpose flexible sealant for a broad range of surfaces

Construction Sealants

For trade and professional applications, Selseys offers a suite of high-performance construction sealants:

- **Selseys Pro Trade Joint Sealant FC** — flexible construction joint sealant for facades and cladding - **Selseys Paint Over Sealant** — designed to be painted over without lifting or cracking - **Selseys Storm Sealant** — immediate waterproof seal on wet or dry surfaces; ideal for roofs, gutters, and exterior joints. Available in Black, Grey, and White - **Selseys 625LM Low Modulus Flexible Sealant** — elastomeric sealant that cures with humidity, suitable for movement joints in commercial construction

Roofing Sealants

- **Selseys Storm Sealant** — professional waterproofing for roofing and gutters, bonds to virtually any material wet or dry - **Selseys Roof and Gutter Spray Seal** — fast spray-on waterproofing for gutters, flashings, and roof penetrations

Fire Rated Sealants

When compliance and life safety matter, Selseys fire-rated sealants are engineered to maintain fire-resistance ratings in construction joints and penetrations:

- **Selseys Fireblock** — fire-resistant sealant for rated construction applications - **Selseys Fireblock XT** — extended performance fire resistant sealant for larger penetrations - **Selseys FlameFlex** — fire-resistant joint sealant for exterior applications; available in cartridge and sausage format (435g / 600mL) - **Selseys Fireblock AC** — fire-rated sealant for acoustic and fire-rated wall systems - **Selseys Fireblock PB** — fire-resistant adhesive sealant for fibre cement wall systems - **Selseys ProSeries AcrySeal** — flexible sealant for fire-rated joint applications

Auto Sealants

For automotive applications, Selseys Auto Fix sealants provide reliable bonding and sealing in engine bays and vehicle exteriors:

- **Selseys Auto Fix Instant Gasket Silicone RTV (Black)** — high-temperature silicone for engine gaskets and seals - **Selseys Auto Fix Windscreen Sealant** — bonds and seals automotive glass - **Selseys Auto Fix Marine Sealant** — waterproof sealant for marine and automotive applications

Glass Sealants

- **Selleys All Clear** — pure silicone for glazing and glass applications; remains clear over time -
Selleys 635 Multipurpose Elastic Sealant Clear — structural glazing and glass joint sealing

How to Choose the Right Sealant

| Application | Recommended Product | |---|---| | Bathroom & shower sealing | Wet Area Silicone, No Mould Silicone | | Gaps around skirting boards & cornices | No More Gaps Interior | | Timber floor gap repairs | No More Gaps Timber Floors | | Exterior weatherproofing | No More Gaps Exterior, Storm Sealant | | Roof and gutter repairs | Roof and Gutter Spray Seal, Storm Sealant | | Fire-rated construction joints | Fireblock, FlameFlex, Fireblock XT | | Automotive sealing | Auto Fix Instant Gasket, Auto Fix Windscreen | | General construction joints | Selleys 630 LM, 635, Pro Trade Joint Sealant FC |

Why Selleys

Selleys has been manufacturing in Australia since 1939 and is part of the DuluxGroup. Every product in the sealants range is backed by comprehensive technical data and safety documentation — making Selleys the professional's choice and the homeowner's go-to for reliable, lasting results.
